

Subject Report

Teacher: Danielle Alty Subject: Music Date: 2022-2023

This year in Music we have taken part in events across schools. We have attended a More Music performance at Ridgewood High School in which we learnt beatbox skills and performed a number of songs in front of an audience. We attended a Christmas sing along at White Ash Primary School with a selection of Upper School children.

We invited in a local musician Oliver Cross who taught us about using iPads to create music independently. The focus of the session was accessibility for all.

Lower school provided a nativity for parents and were little superstars for their first time ever on a stage! Singing, acting and performing to an incredibly proud and emotional audience.

Upper School are currently rehearsing for the Summer performance of the Jungle Book and have fully immersed themselves in the topic of show time, learning their lines, the songs and designing the programmes and posters to advertise their event. Fantastic cross-curricular learning!

This year we introduced a music lunchtime club in which children have the opportunity to attend and play instruments, sing and perform in front of a wider range of peers. This has been successfully attended by a range of children.

It has become apparent as we have worked through the year that our Music Scheme of work requires updating to include a wider range of skills and knowledge for our children. I am currently working with the Lancashire Music Service and attending a course to help re-design our scheme to ensure further progression of skills in music.

Evidence of our Hard Work
