

English

This term we will be looking at multiple stories with historical settings, looking for similarities between texts and how the authors use descriptive writing to set the scene. The children will then be planning, writing and presenting their very own short stories! In poetry, we will be having fun with kennings poems and writing our very own.

Music

This term the pupils will develop their understanding on how music is made, particularly focusing on the length of notes. The pupils will then create their own symbols to represent notes for them to play along to!

Modern Foreign Languages

- Numbers 1-15
- Greetings – Hello, Goodbye, Good morning, good night, good afternoon, good evening
- Colours – blue, white, red, black, yellow, orange, green
- Ratatouille film

Art / DT / Food Technology

In Art this term, we will focus on textiles in the style of John Dahlson. The children will select appropriate textiles for their art from recycled materials while developing their understanding of patterns and artistic shapes.

In Food Technology, the pupils will be exploring different treats that one may have at the seaside! The children will design and plan their own unique treat before making and taste-testing them!

**Michael's
Class**

**Summer 1
2024**

**Life on the
ocean waves**

RE – Buddhism

The children will be looking at who the Buddha was and his many teachings.

Maths

Week 1 – Measurement - length

Week 2 Number Recognition and Counting

Week 3-4 – Calculating

Week 5 – Statistics

Geography- Great Britain

We will be looking at the geographical composition of the countries within Great Britain, with a particularly keen eye on their famous landmarks and surrounding oceans. The pupils will also gather key facts and information to make their very own fact file on one of Britain's famous castles!

PE – Invasion Games

In this term the children will be learning how to attack, defend and think tactically as we improve our skills in such sports as football, netball, basketball, hockey and dodgeball! The pupils will work on their passing, catching, shooting and agility!

PSHE – Healthy Lifestyles

We shall be looking at all the things we can do to sustain a balanced lifestyle, such as good vs bad habits, making healthy choices and the people around us that keep us safe and sound!

Science – Living Things and their Habitats

This term the children shall be looking at all things living on our planet! From plants to animals, the pupils will learn about their classifications, their basic needs and where they live and why. We will also be looking at the impact that humans have on their environments, both positively and negatively.

Computing

. The pupils will be continuing their learning on online-safety, particularly focusing on 'online gaming'. We will also be looking at programming Beebots, inserting a list of instructions for our robots to move how we wish!
