

Religious Education Report 2024

This year in RE, we have continued to help promote pupils' spiritual, moral and cultural development. Our RE curriculum encourages pupils to develop a sense of belonging and identity while fostering an understanding of different faiths and religions found within our multi-cultural society. This year we have made new links with Barden Primary School/The Nest where children have joined together to form new friendships and take part in memorable learning. The children from The Nest joined us to celebrate Diwali. The children took part in a colour party, throwing Holi Powder in the air and then had a sensory Diwali experience. It was a fantastic day and great to see all the children actively involved.

For Harvest day this year, we had a scarecrow competition between each class. The children and staff got involved with creating, designing and stuffing their scarecrow characters! The children were amazed to see them displayed in our sensory garden. Staff, children and our families were very generous with their donations to the local food bank.

At Christmas time, we welcomed in the Brass Band. The children enjoyed singing along to traditional songs and watching the Brass Band play their instruments. The children made Christmas cards for our local care home and a small group of them went and did some carol singing too. The residents of the care home were very happy and grateful for our visit.

Next year, we hope to continue our links with Barden Primary School and The Nest. The RE syllabus is still under review and we have been informed that it will begin being written this Summer. We hope to have an Eid Party next year and to connect with Barden Primary/The Nest for some activities.
